

# Curriculum Vitae

## Stuart Lovatt

44 Panton Road, Chester, Cheshire CH2 3HX.

**Tel:** 07596 045 603

### **Profile**

- Web development experience since 1998.
- Can work on my own initiative and within a team.
- Able to learn new skills quickly.
- Direction, drive and management of others.

### **Professional experience**

Since beginning my career in 1998 with a large ISP based company called Business Serve (later integrated into Iomart group), I have built up my knowledge base of design, development and most importantly SEO skills.

After being awarded a 'Prince of Wales Trust' grant, I became self-employed and soon after developing my own website called Heat My Home (later changed to Power My Home), I have seen go from strength to strength.

### **Education**

Morecambe High School  
NVQ Information Technology levels 1, 2 and 3.  
Diploma 4 in Business Management.  
Two decades of commercial web development experience.

### **Employment**

1998 - 2004: Employed by Business Serve

Website designer, developer and SEO (search engine optimiser). I worked within a small team servicing hundreds of clients within a large internet service provider.

2004 – present: Self-employment

I run my own web promoting PV solar panels from the conception to creation. This includes site architecture, image creation, creating quality content and SEO work to

generate sales leads to sell to the biggest names within the industry.

Link acquisition through great content is vital, as too is graphic design, website structure and speed optimisation.

Other knowledge acquired during this time include: SQL databases, PHP, HTML5, CSS, W3C validation, Wordpress and various other SEO based diagnostic tools.

Working long hours and always keeping updated on the latest optimisation techniques come as standard in this technical industry.

I have turned a hobby into a successful business.
